Sustainability School Quarterly Photobook, September, 2021

Welcome to the third edition of the Sustainability School Quarterly Photobook. This photobook took over from the Sustainability School bulletin which we have been publishing since 2013. Just like the bulletin, the aim of the photobook is to keep a track record of the key activities implemented within the Sustainability School programme which includes the Community Green Radio. It is also aimed at generating and maintaining discussion on contemporary sustainability issues of concern in Uganda and the world at large. The Photobook will as the name suggests, offer more photos than the Bulletin used to offer.

Our special thanks go to the Rosa Luxemburg Foundation of Germany whose financial support enabled us to publish the Sustainability School bulletin and now this Photobook. .

Please enjoy your reading. For any feedback, please send your comments to nape@nape.or.ug or at.kalangi@nape.or.ug

COMMUNITY GREEN RADIO LISTENERS CLUBS IN KIBOGA AND KYANKWANZI DISTRICTS START INCOME GENERATING PROJECTS

After getting its own home in Kiboga in 2018, Community Green Radio (CGR) under the NAPE Sustainability School Programme embarked on the process of forming Listeners Clubs in Kyankwanzi and Kiboga Districts. The radio encourages listeners to put in practice what they learn on the radio.

The radio discourages idleness and urges listeners to engage in projects aimed at improving their livelihoods. As part of building the capacity of the members of the new listeners clubs, the radio arranged exchange visits between them and the listeners clubs in Kikuube and Hoima Districts that have been in place since 2014. What was learnt in those exchange visits is now being implemented by some listeners clubs.
